

OrbitNote — Product & Support Policy

1. Subscription Plans

OrbitNote offers three subscription tiers: Starter, Pro, and Team. The Starter plan is free and limited to 50 notes and 2 connected devices. The Pro plan costs \$9 per month and includes unlimited notes, 10 connected devices, and offline sync. The Team plan costs \$22 per month per seat and adds shared workspaces, admin controls, and priority support.

2. Refund Policy

Annual subscriptions are eligible for a full refund within 14 days of purchase. Monthly subscriptions are not eligible for refunds once a billing cycle has started, but can be cancelled at any time to prevent future charges. The Team plan requires written request to billing@orbitnote.example for any refund, processed within 10 business days.

3. Data Storage and Retention

All notes are encrypted at rest using AES-256 encryption. Free Starter accounts that remain inactive for 18 months will have their data permanently deleted after a 30-day warning email. Pro and Team accounts retain data indefinitely as long as the subscription remains active. Deleted notes remain recoverable from the trash for 60 days before permanent removal.

4. Offline Sync Behavior

Offline sync, available on Pro and Team plans, queues local changes and pushes them to the server once connectivity resumes. If the same note is edited on two offline devices before sync, OrbitNote keeps both versions as separate conflict copies rather than merging them automatically, and flags the conflict for manual resolution in the app.

5. Account Security

Two-factor authentication is optional on Starter and Pro plans but mandatory for all members on Team plans. Failed login attempts are rate-limited after 5 consecutive failures, locking the account for 15 minutes. Password reset links expire after 30 minutes and can only be used once.

6. API Access and Rate Limits

API access is available only on Pro and Team plans. Pro accounts are limited to 1,000 API requests per day. Team accounts are limited to 10,000 API requests per day per seat, pooled across the workspace. Exceeding the limit returns an HTTP 429 response and resets at midnight UTC.

7. Cancellation and Data Export

Users may export all notes as Markdown or PDF at any time from account settings, regardless of plan. Upon cancellation, exported data remains available for download for 90 days before the account and its

contents are permanently deleted. Team workspace admins can export all member data in a single archive before cancelling a workspace.
